Instead of ~~“be careful”~~, try saying...

CLIMBING

“Where will your foot go next?”

Looking before moving

ON A QUIET PATH

“What can you see up ahead?”

Noticing the path

A FULL CUP

“Two hands, slow feet.”

A clear how-to

SCISSORS

“Your other hand holds the paper, away from the blades.”

Exactly what to do

BY THE WATER

“Stay where I can reach you.”

A clear limit, and you stay in reach

Real danger? A clear “Stop!” still comes first.

spark wonder
